Education

BSc Information Technology BNN College | Mumbai University | (2021–2024)

Percentage : 85%

Projects

SaaS Business Management Platform

- Built a scalable SaaS-based business management platform using the MERN stack (MongoDB, Express.js, React.js, Node.js) to streamline client, project, and team operations.
- Implemented secure user authentication and authorization using JWT, ensuring protected access to sensitive business data.
- Designed an interactive analytics dashboard to visualize project status, client activity, and performance metrics for better decision-making.
- Developed client and project management modules, enabling efficient tracking of tasks, deadlines, and team collaboration.
- Tech: React.js, Tailwind CSS, Node js, MongoDB, Express js, JWT.

College Search WebApp (Academic Project)

- Developed a student-focused web application to explore colleges in Mumbai with detailed information on courses, fees, location, and admission criteria.
- Implemented admission eligibility checks and acceptance probability prediction to assist students in making informed decisions.
- Tech: React.js, Tailwind CSS, Python.

Portfolio with AI Chatbot Live

- Built a responsive and animated portfolio website using React, highlighting projects, technical skills, and professional experience.
- Developed an AI-powered chatbot inspired by Google Gemini to deliver real-time responses and interactive conversations.
- Focused on clean UI/UX design to ensure smooth user interaction and fast response handling.
- Tech: React.js, Google API, Tailwind CSS, Modern UI

Asthetica – Modern UI Store Live

- Designed visually aesthetic store with reusable UI components.
- Added filters, dynamic cart, and responsive layout.
- Tech: React.js, Tailwind CSS.

The Schnell Apps WebApp Live

- Developed a high-performance and fully responsive web application using the MERN stack, delivering a seamless and engaging user experience.
- Implemented advanced animations using GSAP to create smooth, interactive, and visually appealing transitions.
- Built scalable backend services and RESTful APIs using Node.js and Express.js, integrated with MongoDB for efficient data management.
- Optimized application performance with techniques like lazy loading, asset optimization, and efficient rendering for fast loading speed.
- Tech: Next.js, Node.js, Express.js, MongoDB, GSAP, REST APIs, Responsive Design

3d Animated Website (Mobile Store) Live

- Developed a highly interactive 3D animated mobile store website using React.js for dynamic UI rendering and component-based architecture.
- Implemented smooth and engaging animations using GSAP (GreenSock Animation Platform), including scroll-based and timeline animations.
- Designed a visually immersive 3D product showcase experience, enhancing user engagement and modern UI appeal.
- Tech: React.js, GSAP, Gemini, Google Flow, Responsive Design

Leadership & Activities

- Member of JavaScripters Mumbai Community Profile
- Volunteered at JavaScripters Mumbai Chapter
- Engaged in JavaScript discussions and knowledge sharing
